

# Lesson 1: Start with a Script

---

## TARGET STRUCTURES

These are the words and phrases you want to target in your story. Try to limit this to 3-6 phrases.

---

---

---

## MAIN CHARACTER

Give the main character a default name and provide a few details about them. The key here is to intentionally keep this vague. You will fill out more details as you tell the story with students.

---

---

---

## PROBLEM/DESIRE

What is the main problem your main character faces? What do they want? This is where the interest is created in your story. Make this a good default option you can fall back on.

---

---

---

## RESOLUTION

How does the problem get solved? Does the main character get what they wanted?

---

---

---
